

# Opal Milky

Diffuser 2mm

## RELATED PRODUCTS

Luxpanel and Dotpanel

### THE MOST ECONOMICAL OPTION

Our least expensive solution. Final result less optimal than other options such as Opal Ice.

### HIGHER COLOUR INTENSITY

The original colours are intensified, with a slight variation. in the representation with respect to the original.

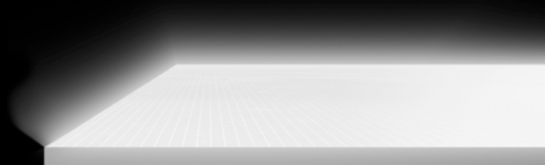

### BRIGHTNESS INCREASE

Increases brightness by 25% because it opens the light beam less.

### RESISTANT AND DURABLE

Weather resistance and no discoloration over time.

### LUMINANCE TESTS

Luxpanel

Opal Milky (2 mm)

Variations with respect to Luxpanel without opal (average):

|       |             |
|-------|-------------|
| CCT   | - 3,49% * ↓ |
| CRI   | - 0,26% *   |
| R9    | - 8,17% * ↓ |
| CD/M2 | + 25,85% ↑↑ |
| LUX   | - 2,93%     |

\* The closer to 0, the less deviation.
